UNIQUE FOOD & INDUSTRIAL WRAP FILM

UNIQUE PLASTICS CORPORATION

UNIQUE WRAP FOR FOOD WRAPPING

◆ MATERIAL & APPLICATIONS

- Soft PVC Non-toxic compounds.
- For wrapping foods such as vegetable, fruit, meat, biscuit, etc.

◆ FEATURES

- Non-toxic-UNIQUE Wrap meets the non-toxic requirements of FDA and JHP and is applicable to food wrapping.
- Gloss and Clarity-UNIQUE Wrap brings neatness to commodity, enhances its value and triggers consumer's purchasing desire.
- Freshness-UNIQUE Wrap has high rate O₂ and CO₂ transmission and excellent moisture retention, thus helping food stay fresh.
- Anti-fog- General film will become hazy and gather tiny water drops on surface when used to wrap moist food. But UNIQUE Wrap is fog-repellent and breaks up water drops to maintain good clarity.
- Cold Resistance-UNIQUE Wrap has excellent cold resistance and can keep softness even under refrigeration.
- Wrapping Applicability-UNIQUE Wrap is suitable for both hand and mechanic wrappings due to its adequate adhesiveness and elongation.

◆ WRAPPING PRACTICES

UNIQUE WRAP FOR INDUSTRIAL WRAPPING

◆ FEATURES

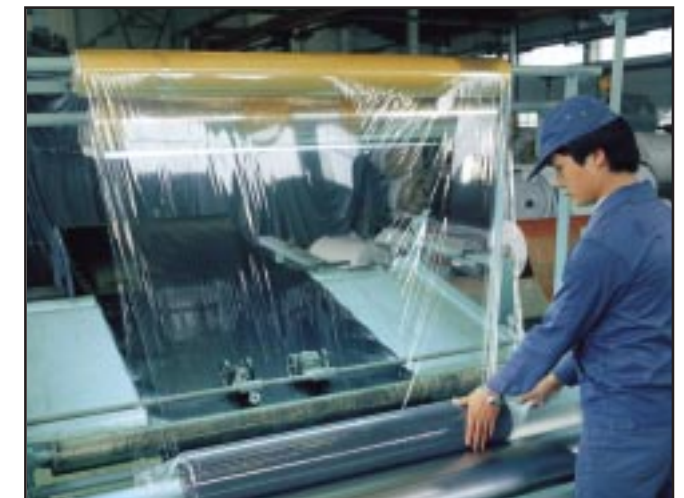

UNIQUE Wrap for industrial wrapping is a brand new packing material developed by this corporation following the introduction of UNIQUE Wraps for food wrapping, its quality is PVC stretch film which features its super-thinness, resilience, transparency and self-stickiness no matter in the packing of individual articles or in pallet wrapping, UNIQUE Wrap can meet both requirements for the protection of the products and the lowering of cost because of its moisture-and dust-proofness, labor saving and high efficiency.

UNIQUE Wrap proclaims its excellent resilience and self-stickiness, when applied to pallet packing with its multi-winding. At present it is widely employed in transportation in Europe and America.

◆ WRAPPING PRACTICES

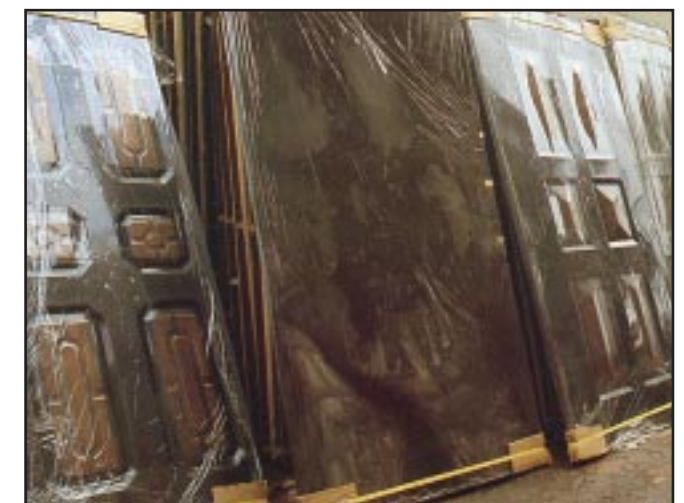

1. For pallet packing
Items: Food cans, chemical products, electronic components, cement, construction materials, casing products, synthetic rubber, PVC asbestos tiles, enameled tiles, screws, cereals, or products using collective pallet packing for transporting.

2. For the packing of roll-shape articles
Items: PVC leather, wall paper, leather, glass fiber, non-woven cloths, piece goods, paper rolls and yarn rolls.

3. For packing small individual articles
Items: Electric wires, iron wires, steel wires, PVC hoses, wheels, spare parts, sculptures, toilet soaps, shoes and other small articles.

4. For surface protective packing
Items: Aluminum plates, decorative plates. Acry, PVC rigid plates, surface of various galvanized products and other printed, pressed and mercerized products.
